

**Section 3 - Refineries**

This Section consists of tables, prepared on the basis outlined in the Appendix.

Tables 3-1 and 3-2 are summaries of 2012 LPG production at refineries in the United States and Canada. Table 3-1 ranks the States and Provinces in order of total 2012 NGL output. Table 3-2 lists the States and Provinces alphabetically.

All other summary tables for refineries in this Section or in Section 1 show States and Provinces in the ranked 2012 LPG order. The detail tables for individual States and Provinces are in alphabetical order, matching the alphabetical summary.

Table 3-3 merges specification products and mix components for ethane, propane and butanes. Totals for these products are carried forward to other summary tables in "NGL Supply Yearbook 2013".

Tables 3-4 and 3-5 are ten-year comparative tables for propane and butanes, respectively. These tables cover 2003 through 2012, a ten-year period.

Tables 3-6 and 3-7 are multi-page tables. Table 3-6 shows the details for individual refineries in the United States and Table 3-7 shows details for refineries in Canada.
